THE EXTRA SESSION.

What the California Legislature is Doing.

A Sacramento dispatch of the 23d, has the following regarding the irrigation session of the Legislature:

The main points comprised in the Governor's message to be sent to the Legislature, are as follows: He states the object of the extra session to be for the purpose of legislating, first, on the irrigation and water rights, and, second, on the reorganization of the Supreme Court. The message, after stating that the emergency is great and pressing and that it requires prompt and wise action, further states that reliance upon judicial interpretation of the law regarding water rights has failed. It then reviews the whole question of irrigation, and calls upon the Legislature to do its part in settling the great question of water ditches by legislating on the views indicated in the Governor's proclamation which contained the call for the extra session.

In the Senate memorials were presented from a number of counties by Senators praying for the passage of the Fresno Convention Irrigation bills.

Cross introduced the following bills: An act to submit to a vote of the people of the State the question of creating and maintaining State Water Works for irrigation and other beneficial uses; also, to provide funds for the erection and maintenance of State Water Works. This Act provides that in case the people vote to establish water works the Board of Examiners shall have printed \$20,000,000 of State Water Works bonds, in \$1,000 parts, to bear interest at the rate of five per cent, payable in twenty years; also, to create a State Board of Water Commissioners. This Act provides that the Governor shall appoint one Commissioner, the Senate two and the Assembly two, the five to constitute the Board. The Commissioners shall serve four years, at \$250 per month, and it is made their duty to acquire ditches, construct works, distribute water and fix rates for its sale at prices that will reimburse the State.

Both Houses of the Legislature, after the appointment of a number of committees and the introduction of bills on irrigation, adjourned until Monday, to allow the committees to discuss and make reports. The most important bill, and that which differs radically from the others, is that of Cross, providing for a constitutional amendment for the construction of State irrigating ditches; also a bill for State water works; also, a bill for a State Water Commission. Cross' main bill provides for the election of five State Water Commissioners, to provide for the purchase and condemnation of water rights, and the construction of ditches to supply water for irrigation, to fix the price and to provide funds to maintain the system.

Anxious to Go to Office.

WASHINGTON, July 21.—General W. H. F. Lee, son of Robert E. Lee, resigned a Lieutenantcy in the United States Army in 1869 and during the war served in the Confederate Army. Becoming ambitious to run for Congress, he petitioned Congress on April 16, 1886, to remove his political disabilities, and to the petition was attached the certificate of the second Auditor that he was not indebted to the Government. Cautious Senator Edmunds, however, made inquiries of the third auditor, when it was found that Lee owed the Government \$177 15 at the time of his resignation. The long-forgotten bill was settled on July 12th and Lee's accounts balanced. Then the bill to remove his political disabilities was reported favorably and passed both Houses of Congress, going to the President yesterday for his signature.

The Coming State Fair

G. H. Stoddard, of Reno, Secretary of the Nevada Agricultural Society, was in Carson yesterday distributing posters announcing the attractions of the next State Fair. No finer posters were ever seen in Nevada, or any other State, for that matter. The pictures are principally devoted to the horse races, of course, but this is the natural bent of Western civilization. Mr. Stoddard informs the Index that the prospects are good for a fine fair. He thinks it will beat anything yet seen in Nevada. Already people from abroad are making applications for space in the pavilion.—Carson Index.

President Cleveland Withdraws Watts' Pardon.

WASHINGTON, July 21st.—Congressman Morrow had an interview with the President to-day relative to the pardon of Watts. He protested against it, and the President surprised him by saying that he had changed his mind in the case. Morrow called the President's attention to the fact that the latter had telegraphed him that the pardon had been issued, and to this Cleveland replied that it was a mistake. The President said he merely wished to notify him that such was his intention. Within a few days, Mr. Cleveland said he had received information which had led him to change his mind.

It was not denied that the pardon was made out, but it has not been sent, nor will it be, and Watts will have to serve out his sentence without hope of Executive clemency. It is furthermore learned that the President's mind in the first place was largely influenced by the report from United States District Attorney Hilborn, recommending the pardon, but this paper is carefully guarded and will not be given out for publication.

The Grand Army Veterans.

CHICAGO, July 22.—The Grand Army Veterans are on their way to the Pacific Coast. The National Encampment organization will take place at San Francisco from August 3 to August 12. The Illinois division will leave for the Occident at noon on Sunday on a special train over the Chicago, Burlington and Quincy road. The party will be in command of General Post, and will number about 150 veterans and their wives. General and Mrs. Logan will be among the number. A portion of the Michigan delegation arrived in the city yesterday, and will be joined to-morrow by the remainder of the Wolverine division. At noon they will depart for the Golden Gate over the Rock Island Railroad. The delegation will number about 100 veterans. The New England delegation, numbering nearly 600 people, will arrive in Chicago early Saturday morning, and will pass the day here. The New York, Pennsylvania and District of Columbia divisions passed through the city Tuesday.

Senator Fair's Residence.

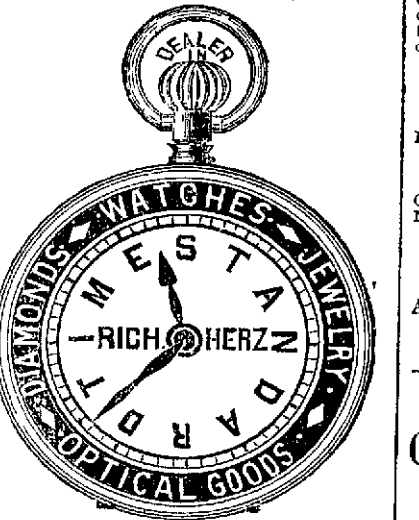

"That your petitioner was at the commencement of this action, ever since continuously has been and now is a citizen and resident of the State of Nevada, in the United States of America." The paragraph quoted is taken from a petition filed Wednesday in the Superior Court of Alamada county. The petitioner is James G. Fair, who represents the State of Nevada in the National Senate. The petitioner asks that the cause of Ann K. Williams against James G. Fair be transferred to the United States Circuit Court, on the ground that the defendant is a resident of Nevada. The merit of the petition was not denied by the plaintiffs and the cause was ordered transferred. The suit transferred is one wherein Mrs. Williams, who owns a piece of property fronting upon Telegraph avenue, seeks to have an order that defendant be compelled to remove the T rails laid in the avenue, to enjoin him perpetually from maintaining T rails therein and to recover \$1,000 damages.

Whether the reptiles fell from the clouds or whether they were driven from their holes by an imaginary St. Patrick this reporter hazards not an opinion." That beats Sam Davis' frogs and sulphur.

Post Meeting.—The members of O. M. Mitchell Post, No. 69, are requested to attend the meeting of the Post Saturday evening at the usual hour. By order of the P. C.

**THE PRESS EXCURSIONISTS.**—The Enterprise of yesterday has the following: The Pacific Coast Press excursionists, numbering between fifty and sixty persons, were expected to arrive at Carson yesterday from Lake Tahoe. They doubtless did so and had a reception and concert last evening at the Carson Opera House. The "musical auxiliary" connected with the party is composed of twelve members of the First Congregational Church choir, of Oakland, under the leadership of Professor A. M. Benham, consequently they are well provided with concert resources, and will treat the people of Reno to something good in that line to-morrow evening. They are to visit the State Prison, the prehistoric tracks and other objects of interest about Carson to-day and arrive in this city by to-morrow's train, stopping at the International. They will visit the mining works, etc., and leave for Reno on the evening train on their return to San Francisco. There are over twenty ladies connected with the excursion, and twenty-six journals will be editorially represented. W. H. Barnes is President and L. P. McCarty, of the Statistician, Secretary of the excursion. The whole party are reported to have enjoyed their trip very much thus far.

**THE FAST TRAIN.**—A San Francisco dispatch of the 22nd says: General Passenger Agent Hitchcock, of the Union Pacific, is in receipt of a dispatch from the General Manager of that road, stating that the fast train schedule would go into effect on or about the first of August. J. M. Davies, of the Chicago and Northwestern, received information from his company that the limited express would begin running on August 1 without fail as the necessary connections had been made. The new arrangement will transport passengers and mail overland at remarkable speed, covering the distance between this city and New York in five days and fifty minutes.

**SALE OF THOROUGHBREDS.**—The postponed sale of Theo. Winters thoroughbred horses will take place at Sacramento to-day. The young animals offered are the produce of Mr. Winters' highly-bred mares for 1884 and 1885, and sired by the celebrated stallions Norfolk, Joe Hooker and Three Cheers. There will also be sold the thoroughbred mares Big Gun, dam of Jim Kenwick; Ada C., the dam of Connor, Ballot Box and others, and Farallone, by Norfolk. The colts and fillies are all closely related to noted performers on the turf, and are of fine size and in excellent condition.

**BOILER EXPLODED.**—The boiler in the kitchen of the Manchester boarding-house, 44 Third street, San Francisco, exploded Thursday, damaging the building to the extent of \$1,000. The Chinese cook was severely scalded, and will probably die. The boiler crashed through the roof of the kitchen, went high in the air and landed in the street 200 feet away. It is the opinion that the explosion was due to low water in the boiler. This is the house at which the Reno boys stopped while at school in the city.

**TOO EASILY DISCOURAGED.**—The Carson-Tribune says: The Carson Guard shooting team has been invited to participate in the shooting tournament for prizes at the Caledonian picnic on August 7th. Our boys will take part, but hardly expect to capture the first prize, as is usual with the team, owing to the fact that four of the crack shots—Thaxter, Hark, McCullough and Wilcox—are Grand Army men and will be in San Francisco attending the National Encampment.

**OUR PROSPECTING.**—The News Reporter says: B. F. Leete, a Reno capitalist, and his son Mac, passed through Dayton Wednesday on their way to Gold Mountain, south of Candelaria, where they have mining interests. They took with them a complete prospecting outfit, including a new kind of quartz crusher, which they think will solve the problem of the cheap reduction of ore.

**OPEN AIR CONCERT.**—The open air concert at the "Oasis" of the Depot Hotel last evening was a grand affair. The night was cool and pleasant, and the beautiful grounds never looked better, while the music furnished by the Reno Cornet Band was unusually good. It was pleasing alike to our home people and travelers.

**RENO AND VICINITY.**—In a long article in the Northwestern Live Stock Journal, on the stock growing capability of this State, is the following regarding the Truckee Meadows:

West of Humboldt lake we cross a low divide and enter the valley of the Truckee river. The railroad follows this stream for about forty miles. The Truckee Meadows are the most noted of any in the State and ranch improvements are constantly being made. In the vicinity of Reno there was cut and fed out to cattle last year not less than fifteen thousand tons of alfalfa, besides a large quantity of native meadow hay. Twelve thousand head of beef steers were ripened on hay for the markets, some fed but a few weeks, and others three to five months.

As illustrating the importance of the utilization of the hay lands of this great region, Reno may be pointed to. It is the most thriving town in the State and shows all the signs of a live, growing and exceedingly prosperous little city. The reason is the development of the hay lands round about and the concentration there of an active and intelligent population recognizing the benefits to flow from using what nature has bestowed upon them with so lavish a hand. Reno's prosperity may be duplicated in a dozen other places in the State by the simple process of developing the resources at command. North of the Truckee river is a large range country very well covered with grass, but somewhat deficient in water supply in the central part. Spanish Springs valley affords some water but not enough to justify a heavy stocking of the range. The Truckee river on the south and Pyramid lake on the north afford an abundance of water for those portions, and by constructing a ditch from the Truckee, near Wadsworth, the central part of the district may be amply provided for, thus making this a splendid cattle country.

**BISHOP WHITAKER'S ACCEPTANCE.**—The Philadelphia Times of the 16th instant says: Bishop Whitaker, of Nevada, who was lately elected Assistant Bishop of this diocese, has written a letter to Bishop Stevens, which was received yesterday and will be forwarded to him at Geneva, New York. It is supposed to contain his letter of acceptance of the position and a notification that he would arrive in the city in the near future.

**HORNLESS CATTLE.**—Cattle breeders say that bulls of Polled Angus and other thoroughbred polled breeds produce hornless calves when bred to native cows, with very rare exceptions. When such bulls are crossed upon cows of thoroughbred breeds that have horns, the calves are liable to come with small or deformed horns. The polled breeds are quite as prolific as others.

**PRETTY RED WAGON.**—Rice was out with his newly painted milk wagon yesterday and the jingling of his silver bells warned everybody of his coming. The South Side Dairy has always furnished the "cream" of the business, and Rice says he has the sweetest wagon and the sweetest milk on the coast. We believe him, too, for we sampled his pure milk yesterday.

**A CATTLE TRADE.**—A. B. Matthews, importer of Galloway and Angus cattle, has traded 200 black muley bulls to W. B. Toddhunter for range bulls. The latter Mr. Matthews intends to ship east and fatten them for Chicago packers. So says the Silver State.
